Magna Overview

At Magna, we create technology that disrupts the industry and solves big problems for consumers, our customers, and the world around us. We're the only mobility technology company and supplier with complete expertise across the entire vehicle.

We are committed to quality and continuous improvement because our products impact millions of people every day. But we're more than what we make. We are a group of entrepreneurial-minded people whose collective expertise gives us a competitive advantage. World Class Manufacturing is a journey and it's our talented people who lead us on this journey.

Innovation is at our core. It's how we anticipate market trends, continuously improve our products and processes, and lead the industry into the future. Innovation is what drives us. And we drive innovation.

From Components to Systems to Full-Vehicle Manufacturing

If you can imagine it, we can build it. No other company has the complete systems knowledge that Magna possesses. It's what has made us the industry's most trusted partner for decades. It's why our technology is in two-thirds of all vehicles produced today. And it's the reason we're most prepared to push mobility into the future. Our breadth of expertise is categorized in these key areas:

Across the Globe. Across the Industry.

As of Q3 2021

Magna partners with the world's leading automakers to improve the vehicles people drive and the lives they lead. Our agility and full-vehicle expertise, along with the ability to develop and auto-qualify disruptive technologies from universities, startups and other industries, is unmatched in the industry. Which means, with hundreds of facilities worldwide, we can take our innovative thinking anywhere, quickly.
