Magna International donates extraordinary \$3 million gift to the expanded Diagnostic Imaging Department of Milton District Hospital

MILTON, ON – August 13th, 2015 – Milton District Hospital Foundation is pleased to announce a significant \$3 million gift from Magna International in support of the ***Our Home, Our Hospital. The Campaign to Expand Milton District Hospital***

The ***Our Home, Our Hospital Campaign*** is the most ambitious capital campaign the Milton District Hospital Foundation has undertaken. Funding of the MDH Expansion will be shared amongst the provincial government, Halton Healthcare Services (HHS) and the community.

Magna International Inc., a leading global automotive parts supplier, has committed to a \$3 million contribution to Milton District Hospital Foundation's *Our Home, Our Hospital Campaign*. The donation, which will name Milton District Hospital's new and expanded Diagnostic Imaging Department, is part of Magna's commitment to support socially beneficial projects in communities where employees live and work. Magna's corporate contribution philosophy and dedication to working with charitable organizations that share a goal of making a difference is fulfilled in their support for the hospital's expansion project.

The Milton District Hospital expansion will add 330,000 square feet of space to the existing 125,000-square-foot hospital. Designed to address the needs of all users, the project will focus on meeting the care needs of those living in the Milton, the fastest-growing community in Canada. Once complete, the renovated hospital will offer greater access to excellent healthcare for all Milton and area residents.

Project highlights include:

- expansion of emergency and surgical services, medical/surgical inpatient units, critical care, maternal newborn and diagnostic imaging and support services
- overall capacity increase from 63 to 129 inpatient beds

- eighty per cent single-patient rooms for improved infection prevention and control and to provide increased patient privacy and a quieter healing environment
- addition of the hospital's first Magnetic Resonance Imaging (MRI) machine
- a Level 2A Special Care Nursery with capacity for eight bassinets in the Maternal Newborn Unit

Construction is now well underway and is expected to be complete in the spring of 2017.

Quotes:

Janet Skupsky, Chief Operating Officer, Milton District Hospital:

"We are so fortunate to have such a generous community to support this project. We are grateful to Magna Corporation for their unprecedented gift to expand and enhance healthcare in Milton, and their leadership in encouraging the community to share in their support through their \$3 million gift. We are pleased to be able to recognize this generosity with the naming of the Magna International Diagnostic Imaging Department."

Mike Sinnaeve, Vice President of Operations, Magna Corporation:

"Milton is a key region for Magna as we have two major manufacturing facilities there." In line with our philosophy that we help support the communities in which we operate, we are excited to contribute to the health and wellness of the Milton community and its surrounding areas."

Brian Penman, Board Chair, Milton District Hospital Foundation:

"Your substantial investment will help ensure the health and wellbeing of Milton families, friends and neighbours and Magna International employees who are vital to our community. Our inclusion among your leading philanthropic ventures is something for which we are deeply grateful and will do much to build awareness and encourage the Milton community to get involved."

About Halton Healthcare and Milton District Hospital Foundation:

Halton Healthcare is a progressive, multi-site healthcare organization comprised of three community hospitals - Georgetown Hospital (GH), Milton District Hospital (MDH) and Oakville Trafalgar Memorial Hospital (OTMH). Together these hospitals provide healthcare services to more than 300,000 residents in the communities of Oakville, Milton and Halton Hills.

Milton District Hospital Foundation is the Milton District Hospital's fundraising arm. Its sole purpose is to raise funds for new and replacement essential medical equipment, renovation needs, and other supplemental projects of the Milton District Hospital.

About Magna Corporation:

Magna is a leading global automotive supplier with 319 manufacturing operations and 85 product development, engineering and sales centres in 29 countries. Magna has approximately 136,000 employees focused on delivering superior value to its customers through innovative products, processes and World Class Manufacturing.
