

Business Policy of Engineering Center Steyr GmbH & Co KG

Engineering Center Steyr GmbH & Co KG (ECS) sets itself the aim of fulfilling the agreed requirements and expectations of its interested partners (*customers, employees, suppliers, partners of Magna Group, owners and society*) in the best possible way. Continuous innovation policy and high technological competence are considered the indispensable prerequisites to guarantee the success of our company.

In consideration of the corporate strategy, the following management objectives were derived:

- It is our prime concern that our customer and Magna Group agreements are met through consistent and interdepartmental co-operation as part of the project management to fulfil and exceed their expectations best possible.
- Prompt and competent customer advisory services on product development, delivery reliability and flexibility as well as a comprehensive on-site support are forming the basis for a positive, long-term partnership.
- Development and motivation of our employees by delegation of responsibility (project responsibility, self-assessment, management responsibility, environmental and safety awareness, etc.), integration into the information flow for an active participation within the business processes, promotion of training and creation of a cooperative working atmosphere.
- Protection of know-how, company and business secrets according to our information security policy.
- Creation of safe and secure products by considering the current and future safety / security regulations. Consideration of safety and security requirements of all our stakeholders, especially of customers, suppliers, authorities, regulators and the public.
- Delivery of safe and secure products as well as promotion of health and safety of the employees, customers, partners, neighbours and the public by providing safe and healthful work conditions and by a good safety culture.
- Use of existing synergies by teamwork of our experts from all disciplines for processing complex problems.
- Partnership and goal-oriented co-operation with our suppliers by fair, long term and capacity optimised arrangements.
- Improve company value by market- and yield-oriented business growth.
- Sustainable integration of business activities into neighbourhood and environment by preventing and minimizing environmental impacts by using best available technology.
- Fulfilment of compliance obligations: Compliance with relevant employment and environmental legislation and regulations.
- Commitment to continuous improvement in all areas, processes and activities will be understood as an integral part of our daily business.

For the implementation of the corporate strategy and the management objectives derived from it, the management of Engineering Center Steyr GmbH & Co KG has implemented a management system acc. to the standards **ISO/IEC 17025, ISO 9001, IATF 16949, ISO 14001, ISO 45001, ISO 26262** and **TISAX**. Structure and process organisation are in line with these objectives.
