

Drivetrain system

Dual-Clutch Transmission

Dual-Clutch Transmission 8DCL900

High performance dual-clutch transmission for super sports cars with longitudinal drive train architecture.

Cleaner

Smarter

Competitive advantage/differentiators

- Fully integrated system
- High efficiency
- High shift performance
- High power density
- Single Oil concept
- Supports low center of gravity of vehicle

Applications/benefits

- Front- and mid-engine applications
- Comfortable or sporty characteristics realizable
