Design

Competitive advantage/differentiators

- Coupe silhouette achieved by a stable roof line with excellent stiffness and a high rigidity-weight ratio
- Large backlite providing a bright and comfortable interior.
- Z folding soft top folding into a minimal size, offering more space in the trunk
- Cost-effective weight reduction due to integration of functions and consolidation of multiple parts to one component

Design

Competitive advantage/differentiators

- Complete ready-to-fit roof module including tonneau cover, tonneau cover kinematics, folding top case, flaps, hydraulic system and integrated roll-over protection. Yields ease of final vehicle assembly integration.
- Retractable backlite cassette with heated glass that can be cycled independent of the roof system
- Opening and closing cycle: 19 seconds for each operation
- Roof system offers cycle at speed up to 50 km/h
- Acoustically optimized fabric cover with complete headliner
