

A photograph of a city street at night, viewed from a low angle looking down a road. The street is illuminated by streetlights, and the buildings in the background are lit up. The image has a motion blur effect, suggesting a fast-moving vehicle or camera. The text 'INVESTOR PRESENTATION' is overlaid on the left side of the image.

INVESTOR PRESENTATION

NOVEMBER 2021

Forward Looking Statements

Certain statements in this presentation constitute "forward-looking information" or "forward-looking statements" (collectively, "forward-looking statements"). Any such forward-looking statements are intended to provide information about management's current expectations and plans and may not be appropriate for other purposes. Forward-looking statements may include financial and other projections, as well as statements regarding our future plans, strategic objectives or economic performance, or the assumptions underlying any of the foregoing, and other statements that are not recitations of historical fact. We use words such as "may", "would", "could", "should", "will", "likely", "expect", "anticipate", "believe", "intend", "plan", "aim", "forecast", "outlook", "project", "estimate", "target" and similar expressions suggesting future outcomes or events to identify forward-looking statements. The following table identifies the material forward-looking statements contained in this document, together with the material potential risks that we currently believe could cause actual results to differ materially from such forward-looking statements. Readers should also consider all of the risk factors which follow below the table:

Material Forward-Looking Statement	Material Potential Risks Related to Applicable Forward-Looking Statement
Light Vehicle Production	<ul style="list-style-type: none"> Light vehicle sales levels Supply disruptions, including as a result of the current semiconductor chip shortage Production allocation decisions by OEMs
Total Sales	<ul style="list-style-type: none"> Economic impact of COVID-19 on consumer confidence Supply disruptions, including as a result of a semiconductor chip shortage currently being experienced in the industry
Segment Sales	<ul style="list-style-type: none"> Global energy shortages Elevated level of inflation Concentration of sales with six customers Shifts in market shares among vehicles or vehicle segments Shifts in consumer "take rates" for products we sell
Adjusted EBIT Margin	<ul style="list-style-type: none"> Same risks as for Total Sales and Segment Sales above Operational underperformance
Segment Adjusted EBIT Margin	<ul style="list-style-type: none"> Higher costs incurred to mitigate the risk of supply disruptions, including: materials price increases; higher-priced substitute supplies; premium freight costs to expedite shipments; production inefficiencies due to production lines being stopped/restarted unexpectedly based on customers' production schedules; other unrecoverable costs; and price increases from sub-suppliers that have been negatively impacted by production inefficiencies
Net Income Attributable to Magna	<ul style="list-style-type: none"> Price concessions Commodity cost volatility Higher labour costs Tax risks
Equity Income	<ul style="list-style-type: none"> Same risks as Adjusted EBIT Margin/Segment Adjusted EBIT Margin/Net Income Attributable to Magna above Risks related to conducting business through joint ventures
Free Cash Flow	<ul style="list-style-type: none"> Same risks as for Total Sales/Segment Sales, and Adjusted EBIT Margin/Segment Adjusted EBIT Margin/Net Income Attributable to Magna above

Forward Looking Statements (cont.)

Forward-looking statements are based on information currently available to us and are based on assumptions and analyses made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate in the circumstances. While we believe we have a reasonable basis for making any such forward-looking statements, they are not a guarantee of future performance or outcomes. In addition to the factors in the table above, whether actual results and developments conform to our expectations and predictions is subject to a number of risks, assumptions and uncertainties, many of which are beyond our control, and the effects of which can be difficult to predict, including, without limitation:

<p>Risks Related to the Automotive Industry</p> <ul style="list-style-type: none"> economic cyclicality; regional production volume declines, including as a result of the COVID-19 pandemic, semiconductor shortage and energy shortages, including in China; intense competition; potential restrictions on free trade; trade disputes/tariffs; <p>Customer and Supplier Related Risks</p> <ul style="list-style-type: none"> concentration of sales with six customers; emergence of potentially disruptive EV OEMs, including risks related to limited revenues/operating history of new OEM entrants; OEM consolidation and cooperation; shifts in market shares among vehicles or vehicle segments; shifts in consumer "take rates" for products we sell; quarterly sales fluctuations; potential loss of any material purchase orders; a deterioration in the financial condition of our supply base, including as a result of the COVID-19 pandemic; <p>Manufacturing Operational Risks</p> <ul style="list-style-type: none"> product and new facility launch risks; operational underperformance; restructuring costs; impairment charges; labour disruptions; COVID-19 shutdowns; supply disruptions, including with respect to semiconductor chips; higher costs to mitigate supply disruptions; climate change risks; attraction/retention of skilled labour and leadership succession; 	<p>IT Security/Cybersecurity Risk</p> <ul style="list-style-type: none"> IT/Cybersecurity breach; Product Cybersecurity breach; <p>Pricing Risks</p> <ul style="list-style-type: none"> pricing risk following time of quote; price concessions; commodity cost volatility; declines in scrap steel/aluminum prices; <p>Warranty / Recall Risks</p> <ul style="list-style-type: none"> costs related to repair or replacement of defective products, including due to a recall; warranty or recall costs that exceed warranty provision or insurance coverage limits; product liability claims; <p>Acquisition Risks</p> <ul style="list-style-type: none"> competition for strategic acquisition targets; inherent merger and acquisition risks; acquisition integration risk; 	<p>Other Business Risks</p> <ul style="list-style-type: none"> risks related to conducting business through joint ventures; our ability to consistently develop and commercialize innovative products or processes; our changing business risk profile as a result of increased investment in electrification and autonomous driving, including: higher R&D and engineering costs, and challenges in quoting for profitable returns on products for which we may not have significant quoting experience; risks of conducting business in foreign markets; fluctuations in relative currency values; tax risks; reduced financial flexibility as a result of an economic shock; changes in credit ratings assigned to us; <p>Legal, Regulatory and Other Risks</p> <ul style="list-style-type: none"> antitrust risk; legal claims and/or regulatory actions against us; and changes in laws and regulations, including those related to vehicle emissions or made as a result of the COVID-19 pandemic.
--	---	---

In evaluating forward-looking statements or forward-looking information, we caution readers not to place undue reliance on any forward-looking statement. Additionally, readers should specifically consider the various factors which could cause actual events or results to differ materially from those indicated by such forward-looking statements, including the risks, assumptions and uncertainties above which are:

- discussed under the "Industry Trends and Risks" heading of our Management's Discussion and Analysis; and
 - set out in our Annual Information Form filed with securities commissions in Canada, our annual report on Form 40-F filed with the United States Securities and Exchange Commission, and subsequent filings.
- Readers should also consider discussion of our risk mitigation activities with respect to certain risk factors, which can be also found in our Annual Information Form.

Key Messages

- 1** Well-positioned to capture growing market opportunities given systems approach and unique complete vehicle capabilities
- 2** Supplier of choice for automakers and enabler for new entrants
- 3** Strategic portfolio positions us for sales growth over market and strong free cash flow
- 4** Untapped potential to generate profits and grow shareholder value

Accelerate Deployment of Capital Towards High Growth Areas

Magna Sales Over Time

Our Strategy is to Drive Growth in Positively Impacted Areas

High Growth Area: Electrification

Expected Managed Sales¹

Key Growth Contributors

- > eDrive program launches in China in HASCO-Magna Joint Venture
- > High-volume 48V hybrid DCT programs
- > New business in primary and secondary eDrives
- > Expect >50% sales CAGR over the next few years in LG Joint Venture

Strong Competitive Position for Transition to Electrification

¹ Managed sales = consolidated sales + sales at 100% for unconsolidated entities.

² Forward-looking financial information beyond 2021 continues to be based on outlook information and assumptions provided in our outlook press release dated February 19th, 2021, and has not been updated.

Electrification

✓ Program Award

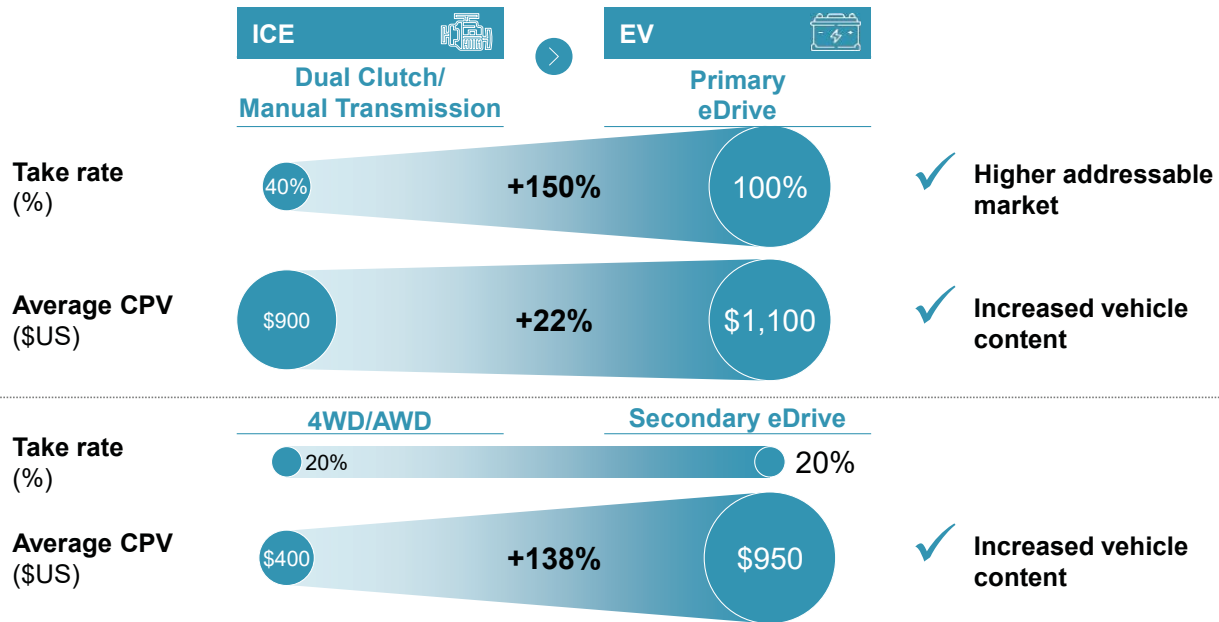

Dual-Clutch Transmissions

- Awarded family of transmissions from Daimler, including traditional (DCT) and hybrid (HDT) launching in 2025
- Represents third high-volume HDT program award
- Beginning to launch HDTs this quarter for two additional global customers

Supports Magna's Growth in Electrification

Well-Positioned to Capture Growing EV Opportunity

Higher Content Opportunity and Addressable Market for Magna as EV Transition Unfolds

Innovative Electrification Solutions

EtelligentEco

Connected PHEV system

- Up to 38% emission reduction
- Unique cloud connectivity feature
- Smart cruise control and eco routing
- Class-leading performance in all-electric driving

EtelligentReach

Battery-electric drive system

- 30% range extension
- Combination of Next-Gen eDrive, software and controls
- Improvement in efficiency and driving dynamics
- First awarded business

EtelligentForce

EV solution for pick-up trucks

- Drop-in replacement retains pick-up truck capability
- Leverage existing assembly processes and installed capital
- First significant change to solid beam rear axle in more than 100 years

New Benchmark for Efficient Plug-in-Hybrid Technology

BEV Drive System for Best-in-Class Range and Dynamics

Electrifying Trucks without Compromising Utility

High Growth Area: ADAS

Expect ADAS Sales to Grow Above Market

Key ADAS Growth Contributors

- Ongoing Investments
- Expanding Software Engineering Team
- Strategic Partnerships

Well-Positioned to Address ADAS Opportunities

¹ Forward-looking financial information beyond 2021 continues to be based on outlook information and assumptions provided in our outlook press release dated February 19th, 2021, and has not been updated.

Autonomy

✓ Program Award

Advanced Front Cameras

- Awarded new business with European-based global OEM
- Will utilize latest generation camera technology
- Based on platform that already has applications in production

Bolsters Magna's Leading Camera Position

Innovation Across the Vehicle

Rethinking the possibilities using our core strengths and systems know-how

Battery Enclosures
Structural opportunities expand with electrification

Committed to Manufacturing Excellence

Early Stages of Our Sustainability Journey

Focused on Energy Optimization and Renewable Energy

- Goals for carbon-neutrality
 - In Europe by 2025
 - Globally by 2030
- Will be an industry leader in North America, and aligned with industry leaders in Europe

Broad Sustainability Strategy

- Product quality
- Health and safety culture
- Diversity and inclusion
- Employee development and training

**Science-Based Approach
Aligned with Objectives of
Paris Climate Agreement**

Unlock New Business Models and Markets

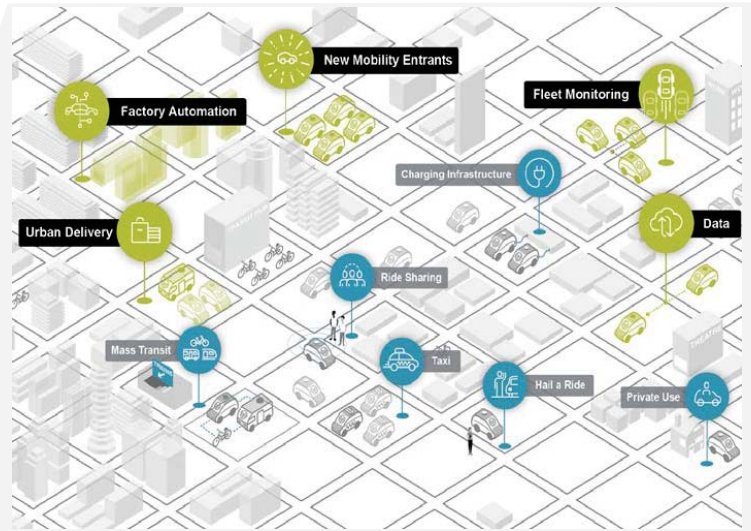

New Mobility Landscape Creating Wide Range of Opportunities

- Urban delivery
- Factory automation
- Collaboration with automakers

Magna Positioning

- Building blocks to participate in many of these areas
- Complete vehicle systems approach makes our proposition more attractive
 - Capital efficiency
 - Launch reliability
 - Speed to market

Leveraging Our Systems and Complete Vehicle Knowledge to Unlock New Business

Flexible Production Concept

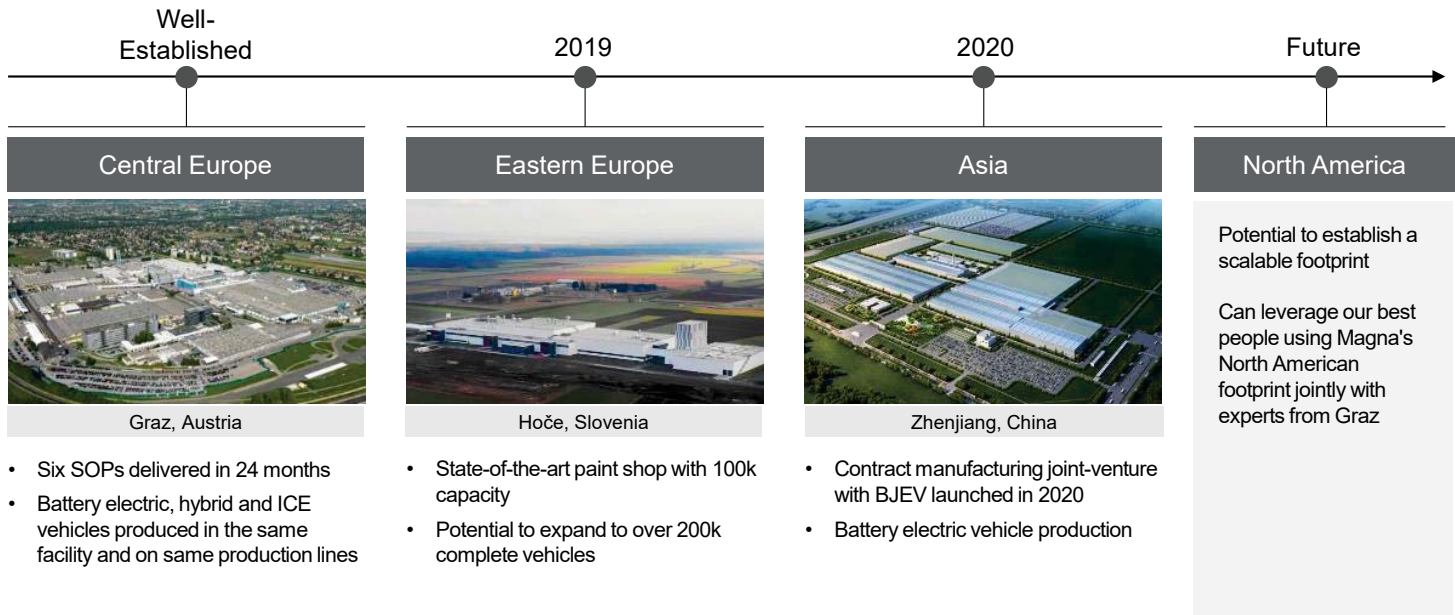

- Expansion planning in advance
- Volume expansion in phases
- Flexible supply management approach

Can Scale to Meet Volume Requirements and Optimize Future Expansion

Global Production Network

Ability to Scale and Localize in Key Markets

Reflects Current Industry Environment

Q3 2021 vs Q2 2021 (Sequential) Financial Results

Consolidated Sales (\$Billions)

Q3'21 vs Q2'21 Production

Global	-6%
North America	-1%
Europe	-18%
China	-2%
Magna Weighted	-6%

Key Factors

- Lower global light vehicle production, substantially due to semiconductor chip shortage (-)
- Negative program mix (-)
- Foreign currency translation: \$90M (-)
- Sale of three loss-making Exteriors facilities (-)

Q3 2021 vs Q2 2021 (Sequential) Financial Results

Adjusted EBIT & Margin

(\$Millions)

-59%

Key Factors

- Lower earnings on \$1.1B decline in sales (-)
- Production inefficiencies driven by unpredictable OEM production schedules (-)
- Increased production costs, including freight and commodities (-)
- \$45 million provision on engineering service contracts with automotive unit of Evergrande (-)
- Favourable value-added tax settlement in Brazil in Q2 (-)
- Lower profit sharing and incentive comp (+)
- Lower launch costs (+)
- Sale of three loss-making Exteriors facilities (+)

2021 Outlook Assumptions

	2020	AUGUST	NOVEMBER
Light Vehicle Production (millions of units)			
• North America	13.0	14.4	13.4
• Europe	16.5	18.1	16.5
• China	23.5	24.7	23.0
Foreign Exchange Rates			
• 1 CDN dollar equals USD	0.746	0.801	0.800
• 1 EURO equals USD	1.141	1.193	1.187
• 1 RMB equals USD	0.145	0.155	0.155

Changed from previous Outlook

2021 Outlook

(\$Billions, unless otherwise noted)

	2020	AUGUST	NOVEMBER
Sales:			
• Body Exteriors & Structures		\$15.3 – \$15.9	\$14.1 – \$14.5
• Power & Vision		\$11.8 – \$12.2	\$11.2 – \$11.5
• Seating Systems		\$5.1 – \$5.4	\$4.6 – \$4.8
• Complete Vehicles		\$6.3 – \$6.6	\$6.0 – \$6.2
Total Sales	\$32.6	\$38.0 – \$39.5	\$35.4 – \$36.4
Adjusted EBIT Margin % ¹	5.1%	7.0% – 7.4%	5.1% – 5.4%
Equity Income	\$189M	\$115M – \$145M	\$120M – \$145M
Interest Expense	\$86M	~80M	~80M
Income Tax Rate ²	25.7%	~23%	~21%
Net Income Attributable to Magna ³	\$1.186	\$2.0 – \$2.2	\$1.35 – \$1.45
Capital Spending	\$1.145	~\$1.6	~\$1.5

Changed from previous Outlook

¹ Adjusted EBIT Margin is the ratio of Adjusted EBIT to Total Sales

² The Income Tax Rate has been calculated using Adjusted EBIT and is based on current tax legislation

³ Net Income Attributable to Magna represents Net Income excluding Other expense (income), net

Free Cash Flow¹ Expectations

2021
(\$Billions)

- Significant reduction in light vehicle production assumptions
- Lower earnings on decline in sales
- Production inefficiencies
- Increased production costs
- Higher working capital levels

■ August 2021 Outlook ■ November 2021 Outlook

¹ Free Cash Flow (FCF) is Cash from Operating Activities plus proceeds from normal course dispositions of fixed and other assets plus settlement of long-term receivable from a non-consolidated joint venture minus capital spending minus investment in other assets

Executing Our Disciplined Profitable Growth Strategy

Strategy

Accelerate deployment of capital towards high-growth areas

Drive operational excellence

Unlock new business models and markets

Generating Sustainable Shareholder Value

¹ Adjusted Return on Invested Capital (Adjusted ROIC) is calculated as Adjusted After-tax operating profits divided by Average Invested Capital for the period. See Magna's 2020 Annual Report for detailed calculation.

² Forward-looking financial information beyond 2021 continues to be based on outlook information and assumptions provided in our outlook press release dated February 19th, 2021, and has not been updated.

Investment Summary

- Well-positioned to capture growing market opportunities given systems approach and unique complete vehicle capabilities
- Supplier of choice for automakers and enabler for new entrants
- Strategic portfolio positions us for sales growth over market and strong free cash flow
- Untapped potential to generate profits and grow shareholder value

Structural Opportunities
Expand with Electrification

Magna MezzoPanel™

- First-to-market, large-format decorated front integration panel
- Integrates ADAS sensors and lighting
- Features hidden-until-lit functionality
- Awarded program using this core technology
- Enables design distinction for EV front ends

Changing the Face of Electric Vehicles

SmartAccess™

- Enables unique access experiences
- Easily operated through multiple human-machine interface solutions
- Enhanced safety through non-contact obstacle detection

Adaptive Beam Lighting

- Glare-free high beam
- Virtual dynamic bending
- Speed-dependent lighting
- Pedestrian detection

Increased Safety and Function
by Integrating Electronics

FreeForm™

- Currently launching technology on complete seat program for global OEM
- Three other programs also awarded, including from new entrant OEM, that launch in 2022
- Significant additional customer interest Fully customizable

Provides Endless Design Possibilities

Smart Dies

- 5-10% uptime improvement
- Up to 30% reduction in scrap
- 30-50% less hours in inspection

Real-Time Analytics
for Better Decisions

Advanced Robotics

- High volume production
- 2D/3D vision systems and trajectory planning with AI
- 50% reduction in floor space
- 10-20% higher operating efficiency

Automation-Enabled Efficiency

Fenceless Robotics

- Operator and robot freely and safely collaborate
- Doubles payload at 10 times the speed
- Reduced floor space
- Improved operator ergonomics

Human and Robotic Collaboration

Data Analytics

- Paint color change process optimization
- Implemented in 20 Exteriors manufacturing facilities
- Significant cost savings

Using Data to Minimize
Waste and Reduce Costs

Segment Financial Performance

Sales (\$Billions)

- Lower global light vehicle production, including impact of semiconductor chip shortage (-)
- Sale of three loss-making Exteriors facilities: \$99M (-)
- End of production of certain programs (-)
- Net customer price concessions (-)
- Launch of new programs (+)
- Foreign currency translation: \$52M (+)

Adjusted EBIT (\$Millions)

- Reduced earnings on lower sales (-)
- Negative impact of production disruptions (-)
- Higher production costs, including freight (-)
- Benefit of COVID-19 related government employee support programs in 2020 (-)
- Higher new facility costs (-)
- Net customer price concessions (-)
- Lower employee profit sharing and incentive comp (+)
- Transactional FX gains in 2021 compared to losses in 2020 (+)
- Sale of three loss-making Exteriors facilities (+)

Segment Financial Performance

Sales (\$Billions)

- Lower global light vehicle production, including impact of semiconductor chip shortage (-)
- Net customer price concessions (-)
- Business combinations during 2021: \$189M (+)
- Foreign currency translation: \$44M (+)
- Launch of new programs (+)

Adjusted EBIT (\$Millions)

- Reduced earnings on lower sales (-)
- Negative impact of production disruptions (-)
- Higher production costs, including freight and commodities (-)
- Higher electrification spending (-)
- Benefit of COVID-19 related government employee support programs in 2020 (-)
- Net customer price concessions (-)
- Lower net warranty costs: \$34M (+)
- Lower net application engineering costs in ADAS (+)

Segment Financial Performance

Sales
(\$Billions)

- Lower global light vehicle production, including impact of semiconductor chip shortage (-)
- Net customer price concessions (-)
- Launch of new programs (+)
- Acquisition of Hongli in China: \$102M (+)
- Foreign currency translation: \$8M (+)

Adjusted EBIT
(\$Millions)

- Reduced earnings on lower sales (-)
- Negative impact of production disruptions (-)
- Higher production costs, including freight (-)
- Benefit of COVID-19 related government employee support programs in 2020 (-)
- Net customer price concessions (-)
- Cost savings and operational efficiencies including as a result of implemented restructuring actions (+)
- Productivity and efficiency improvements at certain underperforming facilities (+)

Segment Financial Performance

Sales
(\$Billions)

- Lower vehicle assembly volumes, including impact of semiconductor chip shortage (-4K units)
- Higher euro: \$13M (+)

Adjusted EBIT
(\$Millions)

- \$45M provision on engineering service contracts with the automotive unit of Evergrande (-)
- Lower earnings due to lower assembly volumes, net of contractual fixed cost recoveries on certain programs (-)
- Net customer price concessions (-)
- Higher margins on engineering programs (+)
