RE: Magna Interiors Personnel Announcement

With Terry Hobson recently accepting the role of General Manager at Spartanburg, the Director of Quality for the North American Interiors Group position is vacant.

While we search for candidates, Dan Getzschman has agreed to support the Interiors Group as the Director of Quality. In addition, Dan will continue to provide his overall leadership in our Program Management by chairing the bi-weekly PDP reviews.

We look forward to drawing on Dan's extensive experience in Quality and Program Management as we strive to successfully launch our new programs.
